

## HSC Policy 1.6 Being A Committee Member

1. Being on a committee is probably the most effective way to meet fellow club members. The typical committee consists of anywhere from three to thirty members that work closely together and have a lot of fun.
2. There are usually two or more meetings, which are generally conducted in an informal, party-like atmosphere, where decisions are reached regarding: location of the event, types and amounts of beverages, munchies and hors d'oeuvres, flyer layout, publicity, etc.
3. Each committee member is an intricate part of any successful event. No matter how much, or how little you do, your ideas and participation lessen the load for others.
4. Committee meetings usually consist of a large group of people making decorations, hors d'oeuvres, pots of chili, costumes, posters, and many other items necessary to run the event.
5. Some of the typical things a committee member can volunteer for are:
  - a. Help design flyers
  - b. Make and put up decorations
  - c. Make hors d'oeuvres
  - d. Purchase supplies
  - e. Help with presentation and promotion
  - f. Sell tickets
  - g. Receive people at the door
6. The advantage to being a Committee Member is meeting a lot of new people, having a great deal of fun, and gaining experience in organizations.
7. If you wish to become involved in being on a committee, contact the member that's running an event or one of the social chairpersons.
8. The more actively you participate, the more you will enjoy being a member of our club.
